Entry Requirements

Students are required to have access to a workplace, ideally a work-based project in order to apply the project management principles. This may include a previous workplace, as well as an understanding of the project environment. School leavers will not be enrolled into this qualification.

There are two main pathways into this qualification

- . Relevant qualification
Ideally participants should hold a Certificate IV in Leadership and Management Practice or Frontline Management. However there are a number of other accepted qualifications from industry areas such as Business & Health and Safety.

Many students enter this qualification without holding existing qualifications. As the programs are designed based upon the work environment, experience within that environment is an acceptable point of entry.

Assessments

Post course assessments are required to be completed after the attendance of the face to face workshop. There is no formal exam required for this qualification. Assessments are a mixture of theory and practical based activities.
