

BSB41419 CERTIFICATE IV IN WORK HEALTH & SAFETY

OVERVIEW

Nationally Recognised: Yes
Number of units: 10
Qualification Code: BSB41419

The Certificate IV in Work Health and Safety is designed to provide students with the fundamentals of occupational health and safety across all a broad range of industries in Australia. It is relevant to supervisors, Health and safety representatives, safety officers and those are involved in the management of occupational risk. The Certificate IV is considered the minimum qualification required for anyone wishing to work within the field of occupational health and safety.

What skills are you going to get out of this?

Communication **Risk Management**
WHS Compliance **Problem-solving**

Entry Requirements

There are no formal requirements to gain entry into this qualification. Students are required to have access to a workplace, this may include a previous workplace, as long as the skills can still be applied in a simulated manner.

Time Investment

The amount of effort and time required for this qualification is based upon your existing skills and experience. It is suggested that the course takes approximately 600 hours of learning. However we find that due to our learner profile and the methods by which our programs are structured this is rarely the case. We provide students with the ability to complete the Certificate IV Work Health and Safety over a one (1) year period; however we find that the average time is between 3 to 6 months. During that time there is a large variance in the amount of time each student spends working on the qualification.

Delivery Methods

The Certificate IV Work Health and Safety BSB41419 is delivered nationally in these three methods:

Online	Workshop	RPL
<p>The course is available fully online and is designed to be engaging and interactive. It is self paced and you can commence and make progress at any time. Upon enrolment you will be assigned a training consultant who you can contact via phone or email to assist with your studies.</p> <p>Students have 12 - 18 months to complete this qualification dependent on their online study package chosen.</p>	<p>Our workshops are designed for students to gain the benefit of face to face learning without lengthy time away from their commitments.</p> <p>This is a five (5) day workshop with up to 12 months to complete final assessments. Catering and resources will be provided, and you will receive ongoing support via phone and email outside of workshop days to assist with completion.</p>	<p>Already have experience in Procurement and just want to get accredited? Students may be able to use their previous or current work experience to gain this qualification.</p> <p>The assigned training consultant will use a variety of techniques to assist RPL candidates to compile evidence of the performance criteria. This includes interview-style questions, case studies and emails from supervisors or external parties.</p>

Student Support

Regardless of the chosen study method, all of our students at Scope Training are assigned to a staff member for ongoing support via phone, email or (if available) face to face meetings as required through to completion of their qualification. We encourage students to maintain regular contact with their training consultant to get the most out of their studies.

Benefits

Upon successful completion of 10 units, participants will be awarded the Certificate IV in Work Health and Safety. The Certificate IV in WHS is highly regarded as the minimum industry standard.

Participants will learn how to identify and comply with legislation, Identify, assess, control hazards, contribute to implementing and maintaining WHS consultation process, you will learn how to contribute to workplace emergency procedures and monitoring as well the injury management. This will provide participants with the skills they need to effectively co-ordinate workplace health and safety.

Employment opportunities

The Certificate IV in Work Health and Safety conveys to employers that the holder has practically demonstrated the skills and knowledge to work effectively within the health and safety environment, including specific positions as a Health and Safety Coordinator, Advisor or Representative. Furthermore a qualification from Scope Training advocates that the learner has demonstrated the ability to apply these skills in a work context, reassuring employers of job-readiness.

Job Roles include: Work Health and Safety Officer/coordinator, safety advisor, WHS representative, Health and Safety representative, return to work coordinator Health and Safety Advisor
